1.What is Unified ID?

- It's basically your all-in-one school account.
- You can use it to log into almost everything on campus — like the **JW system** to choose courses, **campus Wi-Fi**, and more.
- Just use your **student ID** and **password** to sign in.

2. How to use Unified ID?

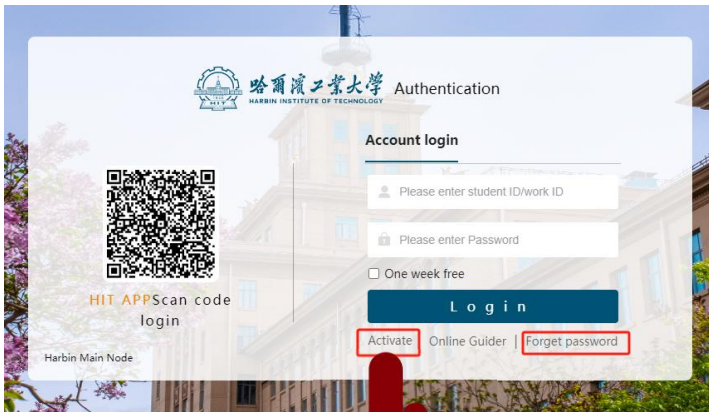

As a new student, **your username is already your student ID number.**
To get started, you just need to activate your account. Here's how:

- ① Go to: <https://ids.hit.edu.cn> (on your mobile or computer)
- ② Click: **“Activate”** at the bottom left of the page
- ③ **Follow the steps** to finish setting up your account

That's it! Once activated, you can use your Unified ID to access the campus systems.

2. How to use Unified ID?

As a new student, **your username is already your student ID number.**

To get started, you just need to activate your account. Here's how:

- ① Go to: <https://ids.hit.edu.cn> (on your mobile or computer)
- ② Click: **“Activate”** at the bottom left of the page
- ③ **Follow the steps** to finish setting up your account

That's it! Once activated, you can use your Unified ID to access the campus systems.

“Activate”——Steps

The screenshot shows a web interface for the activation process. At the top, there are four steps: 1. Authenticate, 2. Bind phone, 3. Set password, and 4. Activation complete. Step 1 is currently active. The form contains the following fields:

- id/work id/letter of admission: enter student id/work id/letter of admission. Example text: Enter Student ID
- name: please enter your name. Example text: Enter your name
- ID type: Passport. A dropdown menu shows 'Choose Passport'.
- ID: Please enter your ID. Example text: Enter Passport ID
- verification code: please enter verification code. Example text: W38A

A blue 'next' button is located at the bottom of the form.

Step1: Authenticate

- Name and passport details must **exactly match IS System** records (case and space sensitive).
- **ID type:** Choose “Passport” or “Other Card”

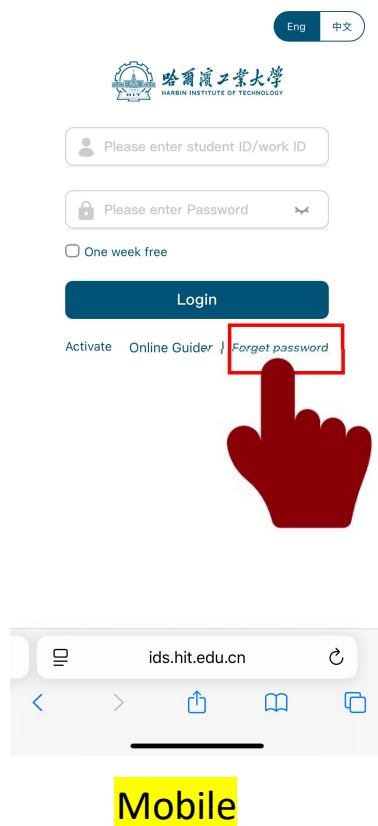

“Activate”——Steps

- 01 校验信息 / Authenticate
- 02 绑定手机 / Bind phone
- 03 设置密码 / Set Password
- 04 激活完成 / Activation complete

1. Tips for Stronger Password Security

- ① Create a strong password
- ② Change your password regularly
- ③ Never share your password
- ④ Store passwords securely
- ⑤ Don't save passwords in your browser

2. Phishing Alert: Quick Tips

- ① Check sender addresses — even slight spelling errors can be fake.
- ② Avoid clicking links or attachments in suspicious emails.
- ③ Ignore urgent/scary messages , don't let them rush you.

Remember: When in doubt — don't click. Report it.

3. Practice Good Digital Citizenship

-  Be respectful online
-  Think before you post
-  Protect your privacy
-  Say no to cyberbullying
-  Use trustworthy sources

Remember: Your digital footprint matters. Make it positive!
