- Final paper is due on **Wednesday, Jun. 24th at 23:59**. I will deduct 2 points for every **hour** that the assignment is late.
- In this essay you should:
  - present a case of a **specific** environmental problem. Remember, keep it manageable.
  - Illustrate why this problem matters
  - Describe a specific solution to the problem, illustrate who get involved in the process of problem solving or policymaking and how the solution is achieved. Again, **keep it manageable**.
  - Provide **proper citation** for the references

Grading Rubric of Final Paper for Using AI Chatbot

Dimension	Excellent	Good	Needs Improvement	Unacceptable
Research Purpose 10%	Research purpose is clearly stated. The purpose is deeply grounded in the topic/theories of this course and intends to address a practical relevant/real-world concerned issue. 8-10 pts	Research purpose is clear in parts. It has some relevance to this course. It addresses an issue with somewhat practical relevance. 5-7 pts	Research purpose is vague or not consistently maintained. It has weak relationship with the topics discussed in this course or have little practical implications . 2-4 pts	No research purpose is found in the paper. 0-1 pts
Capacity of Human–Computer Interaction 15%	Prompts are clearly built on human intellectual reflection and logic so that can effectively guide Conversational AI to generate relevant responses step by step. 12-15 pts	Prompts are somewhat built on human intellectual reflection and logic and generally effectively guide Conversational AI to generate relevant responses step by step. 7-11 pts	The logic of the prompts are vague or hard to follow. The responses generated by Conversational AI have weak relevance with the research purpose. 4-7 pts	There is barely logic in the prompts and cannot generate useful or relevant information in the AI responses. 0-3 pts
Outputs 5%	Final output is coherently organized, and the logic is easy to follow. 4-5 pts	The final output is generally well organized and most of the argument is easy to follow. 3 pts	Final output is poorly organized and difficult to read – does not flow logically from one part to another. 1-2 pts	Final output is hard to follow. 0-1 pts.
Evaluation and Reflection 5%	Provide solid and thorough evaluation on the accuracy, content, and quality of AI-generated output. 4-5 pts	Evaluation is mostly solid but may lack key components. 3 pts	Evaluation is biased and cannot provide concrete reasoning. 1-2 pts	Evaluation section is missing. 0-1 pts

Paper Format and Submission

- The "research purpose" section should be 200–300 words and explain why this issue is important and what motivates your interest in studying it.
- The "human–computer interaction" section should document your entire AI interaction process, including both your prompts and the AI's responses. Simply paste screenshots that capture these exchanges.
- The "output" section should be 1200 to 2000 words long, excluding the references section.
- The "evaluation" section should be about 300 words and include your reflection on the overall process, along with an assessment of the quality of the information the AI provided.
- Your report should include references in the output section. You may choose the reference format, as long as you apply it consistently. Failing to report your sources will be considered plagiarism.
- Name your assignment using the following format: "Student ID_Name".
- Save your assignment as **.doc file** and submit it by **email** to chentingjia@hit.edu.cn
